### **Regarding Core Classes For All Students:**

1. Physical education may be met by participating in two varsity or junior varsity sports from grades 9-12.
2. The senior Modern Literature class may count as English or Social Studies credit; whichever is needed, but not both.
3. To receive credit each year for English classes and as a graduation requirement, each student must read, write a report, and pass the Accelerated Reader test on two books from the required reading list. One of the required books will be part of the students' English or Literature class each year.
4. Each senior shall do a major thesis to qualify for graduation. The requirements, methods, and grading will be set by the teacher of the senior English class, including a minimum passing grade. A student must complete the thesis satisfactorily to receive any English credits for second semester of the senior year.
5. Two years of Drama may equal one year of English credits, if a conflict arises in scheduling.
6. Students may be allowed to withdraw from a class and enter another one without academic penalty, if it is done within two weeks of the beginning of each semester. A parent, classroom teacher, and Principal must approve a drop/add form.
7. A student cannot gain an additional credit for a class that is retaken. If a student gains approval to do so by a teacher and administrator, the second grade will show on the transcript. High honors candidates (such as Valedictorian and Salutatorian) cannot refigure the second grade in their GPA to their advantage.
8. Junior and Senior students may be allowed to take one daily non-core class on a pass/fail basis with the approval of the classroom teacher and Principal. The purpose of taking a pass/fail class is to encourage students to take a difficult course and broaden their horizons without endangering their GPA. A "C-" or higher grade must be achieved to record a "P" in both marking periods, or the actual grade (which would be a "D+" or lower) would be recorded instead. If a student earns an "A" or "A-" in the course, he/she has the option of counting the grade towards his/her GPA.
9. High school juniors and seniors may participate in dual enrollment earning both college and high school credit. One college course equals one high school credit. Classes may only fulfill elective credits. Dual enrollment does not allow for early graduation.
